About This Game

Wizard Slime is a 2D Top-Down shooter game in which you dodge enemy bullets and shoot Magic Missiles guided towards your mouse pointer to successfully beat the dungeon levels without perishing in the process.

While exploring the land around Slime Village, it turns out someone moved next door and you're invited to meet them, whether you like it or not. You're thrown into an underground dungeon where each floor will present you with a new challenge.

Use your mouse-guided Magic Missile to defeat your hosts as you delve deeper and deeper into their home. Several types of enemies and bosses will do their best to turn you into fuel. Use your mobility to outwit their defenses and come out on top for a chance to meet your family again.
